WORK EXPERIENCE

Head of Data & AI

DNX | Jul 2022 - Present

- Founded, led and managed a team delivering solutions on AWS
- Took initiative to make things better and learned a ton on the go
- Collaborated across functions and across teams, including C-level
- Straightened AWS partnership at AWS events
- Designed architectures for dozens of projects in pre-sales

Data & MLOps Engineer

DNX | Mar 2021 - Jul 2022

From pre-sales to delivery, I was the person for all of Data & AI

- Boosted tens of data projects by forging a flexible data platform
- Slashed ML training time with distributed training
- Proactively laid foundations to data & AI team and its offerings

Data Engineer & Solutions Architect

Self-employed | Apr 2020 - Present

Data services mostly on GCP in the public sector

- Enabled municipal analytics by creating a (serverless) data solution
- Transformed and analyzed data in BigQuery

Data Scientist

Vibe | Jan 2019 - Mar 2021

- Brewed ML models for the real estate industry
- Saved hundreds of work-hours through data analyses
- Aligned all by presenting to and communicating with stakeholders
